

Consensio Chalets Slashes Carbon Footprint in Just One Year

Unveiling Consensio's Ambitious Carbon Action Plan for a Sustainable Future

Consensio Chalets, a leader in luxury travel, has taken a bold step towards a sustainable future by unveiling its comprehensive Carbon Action Plan. In response to the climate crisis, the company is committed to reducing its carbon emissions and working towards Net Zero status.

Measuring to Manage

The first step in this journey is accurate measurement. Working closely with carbon consultancy ecollective, Consensio Chalets measured its carbon footprint in 2022/23, which amounted to 358,047 kilograms of CO₂e. **A notable 6% reduction was achieved compared to 2021/2022**, with emissions primarily stemming from properties and chalet experiences (88%), staff business travel (8%), and other operations (4%).

The Net Zero Pledge

Consensio Chalets is setting ambitious targets: **a 90% reduction in carbon emissions by 2035** (with hopes of achieving it sooner). These goals align with the aim of keeping global temperature rise below 1.5°C, as the world currently trends toward 3°C of warming.

Getting Down to Details

The Carbon footprint across various aspects of the business:

- Working from home emissions: 4,757 kgs of CO₂e
- Property electricity emissions: 51,662 kgs of CO₂e
- Property gas emissions: 2,448 kgs of CO₂e
- Vehicles emissions: 23,507 kgs of CO₂e
- Seasonal staff travel emissions: 35,386 kgs of CO₂e
- Purchased goods emissions: 5,493 kgs of CO₂e

A Three-Part Approach

Consensio Chalets is taking immediate action by implementing three key strategies:

1. **More Staff Travel by Train:** By 2024, all seasonal staff will travel home by train when feasible, reducing the carbon footprint of travel.
2. **Reducing Electricity Use in Properties:** Setting thermostats to standard temperatures when guests are present and vacant temperatures when they're not, thus conserving energy.
3. **Reducing Coffee Emissions:** Transitioning to ethically sourced coffee with zero-waste packaging to minimize carbon emissions.

Transparent Progress

Consensio Chalets is dedicated to transparency, sharing both successes and setbacks. Progress in the current year includes reductions in electricity consumption at select chalets, staff training on the climate crisis, and efforts to reduce single-use plastics.

Join the Journey

Consensio Chalets invites all stakeholders and partners to join them on this crucial journey towards a more sustainable and eco-conscious future.

About Consensio Chalets: Consensio Chalets is a premier luxury ski chalet and apartment holiday operator, specializing in delivering exceptional alpine experiences. With a portfolio of exquisite properties in the most sought-after ski destinations, Consensio Chalets has been setting the standard for luxury ski holidays for over a decade. www.consensiochalets.co.uk
